

# THE STATE OF UTAH

OFFICE OF STATE ENGINEER

T. H. HUMPHERYS  
STATE ENGINEER

SALT LAKE CITY

June 15, 1936.

Memorandum for Office Study only, by R.J.

REL: BURNT FORK DISTRIBUTION.

Mr. Jerman called Mr. Giles relative to Jensen case, who advised that Mr. McDonough, County Attorney was to prepare this case but was in court today, and he did not want to do County Attorney's job but would help out if possible.

Mr. Jerman called Mr. McDonough, County Attorney of Summit county and advised him that we must go forward with the Jensen case this week, if possible. Asked what could be done, and when, to assist with the case. Mr. McDonough advised that he would have to have the facts - that he will be in court the rest of this week so it would be impossible for him to come to Salt Lake. He advised that he would call Mr. Jerman tomorrow between 12:00 and 12:30 P.M. to let him know what time he can go to Park City to meet Mr. Jerman and talk the matter over.

June 17, 1936

Following up this proposition I made an appointment with County Attorney, McDonough, met him at Park City yesterday, where we went over all the past records and actions of Jensen. Mr. McDonough took the information which was necessary to prepare the papers. However, before doing so he said he had some information on extraditing that he wished to discuss with Mr. Giles. This morning Mr. McDonough came to Salt Lake and we met in Mr. Gile's office where we again went over the situation and it was finally decided between the attorneys that they would proceed immediately to Burnt Fork with Mr. Bullock, whom we had checked and found is deputy sheriff, and await Mr. Jensen's reappearing on the Utah side; which we think we are assured he will do without delay, because of the way he has been carrying on in the past week.

As soon as he is taken into custody, Mr. McDonough will proceed to Burnt Fork with the Justice of the Peace, where an immediate hearing will be held, and Mr. Jensen turned over to the District Court. It is necessary to take this procedure to the Justice Court, because he is charged with a felony,- that is the destroying of ditches, etc.

Attorney McDonough, after discussing this matter with Mr. Bullock and Mr. Welch tomorrow, may also prepare a misdemeanor charge against him. Under this charge if found guilty, Mr. McDonough thinks it would mean a jail sentence, because of his past conduct.

Also Attorney McDonough will keep us advised of the progress he has made and assures us that his office, together with the sheriff's office of Summit county, have been and will continue to exert their efforts to see that this situation is cleared up at an early date.
